5. empire industrialization and global change	Explain the central idea, complete an application, diagnose one plausible error, and connect it to the next module.

Reliable learning method

define scale and period, compare cases without assuming one path, use primary and secondary evidence, trace connection, and state limits

Representative application

Trace one commodity across regions and explain production, labor, exchange, power, culture, and environmental consequences.

Weekly study cycle

1. Preview the objective and write two questions. 2. Attend or engage and capture decisions rather than every sentence. 3. Reconstruct the main idea within 24 hours. 4. Complete independent practice. 5. Analyze the first unsupported move on each error. 6. Use feedback. 7. Schedule a delayed mixed recheck.

Self-check before moving on

Can you explain the idea without notes, complete a fresh task, detect a near-miss, verify the result, and state a limitation? Watch especially for: turning global history into disconnected civilizations or assuming every society follows one developmental sequence.

What to save

a global history analysis with comparison, connection, chronology, diverse sources, and limitations
